Summary of the revised Paragraph 10 of Part B of the "Quarantine Requirements for the Importation of Plants or Plant Products":

1. According to pest risk assessment results and referring to regulations of other countries, 2 fungi and 2 weeds were added to the regulated pest list and the reasons are as follows:

   (1) *Colletotrichum coccodes* and *Cylindrocarpon destructans* are not present in our territory and harmful to agriculture production.

   (2) *Eriocephalus racemosus* and *Solanum incanum* are high risk for invading our territory.

2. Importation of plants or plant products shall be subject to appropriate quarantine treatment for mitigating regulated pests if they are intercepted. If there is no appropriate quarantine treatment for the pest, the importing plants or plant products shall be destroyed or re-shipped.
