ANNEX 1

ANNEX

to the

COMMISSION IMPLEMENTING REGULATION (EU) .../...

amending Implementing Regulation (EU) No 540/2011 as regards the conditions of approval of the active substance malathion

ANNEX

The column 'Specific provisions' of row 300, malathion, of Part A of the Annex to Implementing Regulation (EU) No 540/2011 is replaced by the following:

'PART A

Only uses as insecticide in greenhouses with a permanent structure may be authorised. Authorisations shall be limited to professional users.

PART B

For the implementation of the uniform principles, as referred to in Article 29(6) of Regulation (EC) No 1107/2009, the conclusions of the review report on malathion, and in particular Appendices I and II thereof, as finalised in the Standing Committee on Plants, Animals, Food and Feed shall be taken into account.

In this overall assessment, Member States must pay particular attention to:

- (a) releases from greenhouses, such as condensation water, drain water, soil or artificial substrate, in order to preclude risks to aquatic organisms;
- (b) the protection of pollinator colonies purposely placed in the greenhouse;
- (c) the protection of operators and workers, so as to ensure that the conditions of use prescribe the use of adequate personal protective equipment, where appropriate;
- (d) the protection of consumers in the case of processed commodities.

Member States shall ensure that malathion-based formulations are accompanied by the necessary instructions to avoid any risk of formation of isomalathion in excess of the permitted maximum quantities during storage and transport.

Conditions of authorisation shall include risk mitigation measures and provide for adequate labelling of plant protection products.'
