THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health (Animal Health Law)<sup>1</sup>, and in particular Article 146(2), point (a) of the first subparagraph of Article 156(2) and Articles 162(5), 238(3) and 239(3) thereof,

Having regard to Regulation (EU) 2017/625 of the European Parliament and of the Council of 15 March 2017 on official controls and other official activities performed to ensure the application of food and feed law, rules on animal health and welfare, plant health and plant protection products, amending Regulations (EC) No 999/2001, (EC) No 396/2005, (EC) No 1069/2009, (EC) No 1107/2009, (EU) No 1151/2012, (EU) No 652/2014, (EU) 2016/429 and (EU) 2016/2031 of the European Parliament and of the Council, Council Regulations (EC) No 1/2005 and (EC) No 1099/2009 and Council Directives 98/58/EC, 1999/74/EC, 2007/43/EC, 2008/119/EC and 2008/120/EC and repealing Regulations (EC) No 854/2004 and (EC) No 882/2004 of the European Parliament and of the Council, Council Directives 89/608/EEC, 89/662/EEC, 90/425/EEC, 91/496/EEC, 96/23/EC, 96/93/EC and 97/78/EC and Council Decision 92/438/EEC (Official Controls Regulation)<sup>2</sup>, and in particular points (a) and (c) of the first paragraph of Article 90 and Article 126(3) thereof,

Whereas:

- (1) Regulation (EU) 2016/429 (the ‘Animal Health Law’) lays down rules on animal diseases that are transmissible to animals or to humans, including requirements for official animal health certification for various movements of terrestrial animals and their products. Those requirements are further specified in Commission Delegated Regulations (EU) 2020/688<sup>3</sup>, (EU) 2020/692<sup>4</sup> and in Commission Delegated Regulation (EU) 2020/686<sup>5</sup> pursuant to Regulation (EU) 2016/429.

---

<sup>1</sup> OJ L 84, 31.3.2016, p. 1.

<sup>2</sup> OJ L 95, 7.4.2017, p. 1.

<sup>3</sup> Commission Delegated Regulation (EU) 2020/688 of 17.12.2019 supplementing Regulation (EU) 2016/429 of the European Parliament and of the Council, as regards animal health requirements for movements within the Union of terrestrial animals and hatching eggs (OJ L 174, 3.6.2020, p. 140.)

<sup>4</sup> Commission Delegated Regulation (EU) 2020/692 of 30.1.2020 supplementing Regulation (EU) 2016/429 of the European Parliament and of the Council as regards rules for entry into the Union, and the movement and handling after entry of consignments of certain animals, germinal products and products of animal origin (OJ L 174, 3.6.2020, p. 379.)

<sup>5</sup> Commission Delegated Regulation (EU) 2020/686 of 17.12.2019 supplementing Regulation (EU) 2016/429 of the European Parliament and of the Council as regards the approval of germinal product establishments and the traceability and animal health requirements for movements within the Union of germinal products of certain kept terrestrial animals (OJ L 174, 3.6.2020, p. 1.).

- (2) For the uniform implementation of the rules, referred to in recital (1), Article 146(2), 156(2)(a) and Article 162(5) of the Animal Health Law empower the Commission to adopt, by means of implementing acts, rules concerning model forms of animal health certificates for the movement between Member States, of certain kept terrestrial animals and hatching eggs, wild animals and germinal products of certain terrestrial animals. Article 238(3) of the Animal Health Law empowers the Commission to adopt, by means of implementing acts, rules concerning the contents and the format of models of animal health certificates, declarations and other documents for the entry into the Union of animals, germinal products and Article 239(3) of the Animal Health Law concerning the entry into the Union of animals and germinal products for which the Union is not the final destination. Therefore, the model official certificates laid down in this Regulation should contain the animal health attestations for movements between Member States and for entry into the Union of certain kept terrestrial animals and hatching eggs, of wild animals and of germinal products of certain terrestrial animals.
- (3) The Official Controls Regulation lays down rules for the performance of official controls and other official activities by the competent authorities of the Member States in order to verify compliance with Union legislation in the area of, among others, food safety at all stages of production, processing and distribution process, processing and distribution process. That Regulation provides for certain rules on official certification when the rules referred to in its Article 1(2) require the issuance of official certificates.
- (4) In particular, point (a) of the first paragraph of Article 90 and Article 126(3) of the Official Controls Regulation empower the Commission to adopt, by means of implementing acts, rules concerning model official certificates, for the issuance of such certificates, and on the format and type of these certificates.
- (5) The Official Controls Regulation and the Animal Health Law already provide a number of definitions that should apply for the purposes of this Regulation. In addition, this Regulation should also have regard to the definitions laid down in Commission Delegated Regulations (EU) 2020/688, (EU) 2020/692 and (EU) 2020/686, respectively.
- (6) Model official certificates should contain details of consignment and specific animal and public health, as well as animal welfare information from the other relevant areas covered by the Official Controls Regulation, as necessary, certified by competent authorities. In case of movement between Member States, model official certificates should contain a part designated to record official controls during movements and at the place of destinations and their results.
- (7) Specific model official certificates for the movement between Member States of certain categories of terrestrial animals and germinal products thereof set out in this Regulation should be drawn up on the basis of the standard model for official certificates for movement of animals and products in the Union set out in Chapter 1 of Annex I to Commission Implementing Regulation (EU) 2020/... [IA FOOD SANTE/7086/2020]<sup>6</sup>.
- (8) Specific model official certificates for the entry into the Union of certain categories of terrestrial animals and germinal products thereof set out in this Regulation should be drawn up on the basis of the standard model for official certificates for the entry into

the Union of animals, products of animal origin, composite products, germinal products, animal by-products, sprouts and seeds intended for the production of sprouts set out in Chapter 3 of Annex I to Commission Implementing Regulation (EU) 2020/... [IA FOOD SANTE/7086/2020].

- (9) Consignments of animals and goods are to be accompanied by an official certificate issued either on paper or in electronic form. Therefore, it is appropriate to establish common requirements as regards issuance of official certificates in both forms in addition to the requirements laid down in Chapter VII of Title II of the Official Controls Regulation. These common requirements should be drawn up on the basis of those set out in Articles 4 and 6 of Commission Implementing Regulation (EU) 2020/... [IA FOOD SANTE/7086/2020].
- (10) The Official Controls Regulation provides that the Information Management System for Official Controls (IMSOC) is to allow for the production, handling and transmission of official certificates, including in electronic form. According to Commission Implementing Regulation (EU) 2019/1715<sup>7</sup>, TRACES is the IMSOC component enabling the entire process of certificate production to be performed electronically, thus preventing possible fraudulent or deceptive practices in respect of the official certificates. To this end, this Regulation should lay down model official certificates that are compatible with TRACES.
- (11) Point (c) of the first paragraph of Article 90 of the Official Controls Regulation empowers the Commission to lay down by means of implementing acts rules concerning the procedures to be followed for the issuance of replacement certificates. These procedures should be drawn up on the basis of those set out in Article 7 of Commission Implementing Regulation (EU) 2020/... [IA FOOD SANTE/7086/2020]. To avoid misuse and abuse, it is important to define the cases where a replacement certificate may be issued and the requirements that need to be met by such certificates. In particular, these cases should be limited to obvious administrative errors, such as transposed numbers in the container number or seal number, spelling errors in addresses or in product descriptions, or in cases where the initial certificate has been damaged or lost. These cases and requirements should be drawn up on the basis of those set out in Article 6 of Commission Implementing Regulation (EU) 2020/... [IA FOOD SANTE/7086/2020].
- (12) Article 126(2)(c) of the Official Controls Regulation establishes the requirement that consignments of certain animals and goods entering the Union are to be accompanied by an official certificate, an official attestation or any other evidence that the consignment complies with the applicable rules referred to in Article 126(1) of that Regulation.
- (13) Model certificates required for animal health and welfare and for public health reasons are currently laid down in various legal acts. For reasons of clarity and legal certainty, as well as for easy access by the competent authorities, the relevant operators and the public, it is appropriate to consolidate these model certificates in one single legal act.

<sup>7</sup> Commission Implementing Regulation (EU) 2019/1715 of 30 September 2019 laying down rules for the functioning of the information management system for official controls and its system components ('the IMSOC Regulation') (OJ L 261, 14.9.2019, p. 37).

<sup>8</sup> Commission Decision 2010/470/EU of 26 August 2010 laying down model health certificates for trade within the Union in semen, ova and embryos of animals of the equine, ovine and caprine species and in ova and embryos of animals of the porcine species (OJ L 228, 31.8.2010, p. 15).

caprine species and in ova and embryos of animals of the porcine species and Commission Implementing Decision (EU) 2019/294<sup>9</sup> lays down the model animal health certificate for imports into the Union of dogs, cats and ferrets. As this Regulation lays down model official certificates replacing those laid down in those Decisions, those Decisions should therefore be repealed.

- (15) It is appropriate to introduce a transitional period of three months to take into account the shipment of consignments of animals and goods accompanied by certificates issued in accordance with models applicable before the date of application of this Regulation.
- (16) As the Animal Health Law applies with effect from 21 April 2021, this Regulation should also apply from that date.
- (17) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:
