

id	Substance Code	Footnote
2079	Ametoctradin (F) (R)	
		(F) = Fat soluble
2079		(R) = The residue definition differs for the following combinations pesticide-code number:
2079		Ametoctradin - code 1000000 except 1040000: Ametoctradin, metabolite 4-(7-amino-5-ethyl [1,2,4]triazolo, [1,5-
2079	0220040	The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
2079	0500010	The European Food Safety Authority identified some information on residues in rotational crops as unavailable. When
2079	0500050	The European Food Safety Authority identified some information on residues in rotational crops as unavailable. When
2079	0500070	The European Food Safety Authority identified some information on residues in rotational crops as unavailable. When
2079	0500090	The European Food Safety Authority identified some information on residues in rotational crops as unavailable. When
2079	0700000	The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
2079	1011010	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1011020	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1011030	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1011040	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1012010	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1012020	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1012030	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1012040	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1013010	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1013020	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1013030	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1013040	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1014010	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1014020	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1014030	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1014040	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1015010	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1015020	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1015030	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1015040	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1016010	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1016020	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1016030	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1016040	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1020010	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1020020	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing

2079	1020030	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1020040	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1030010	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1030020	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1030030	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing
2079	1030040	The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing

2098 **Bixafen (F) (R)**

(F) = Fat soluble

2098 (R) = The residue definition differs for the following combinations pesticide-code number:

2098 Bixafen- code 1000000 except 1040000: sum of bixafen and desmethyl bixafen expressed as bixafen

2098 0213010 MRL derived from rotational crops.

2098 0213020 MRL derived from rotational crops.

2098 0213030 MRL derived from rotational crops.

2098 0213040 MRL derived from rotational crops.

2098 0213050 MRL derived from rotational crops.

2098 0213060 MRL derived from rotational crops.

2098 0213070 MRL derived from rotational crops.

2098 0213080 MRL derived from rotational crops.

2098 0213090 MRL derived from rotational crops.

2098 0213100 MRL derived from rotational crops.

2098 0213110 MRL derived from rotational crops.

2098 0633010 MRL derived from rotational crops.

2098 0633020 MRL derived from rotational crops.

2098 0900010 MRL derived from rotational crops.

2098 0900030 MRL derived from rotational crops.

296 **Fenazaquin (F)**

(F) = Fat soluble

296 0110010 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the

296 0110020 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the

296 0110030 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the

296 0110040 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the

296 0110050 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the

296 0130010 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the

296 0130020 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the

296 0130030 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the

296 0130040 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
296 0130050 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
296 0152000 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
296 0231010 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
296 0610000 The European Food Safety Authority identified some information on residue trials analysing 2-(4-tert-butylphenyl)

805 **Spinetoram (sum of spinetoram-J and spinetoram-L) (A) (F)**

(F) = Fat soluble

(A) The EU reference labs identified the reference standards for the spinetoram-J and spinetoram-L as commercially not available. When re-viewing the MRL, the Commission will take into account the commercial availability of the reference standard referred to in the first sentence by [Office of Publication: please insert date 1 year after publication], or, if that reference standard is not commercially available by that date, the unavailability of it.

805 0120010 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0120020 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0120030 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0120040 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0120050 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0120060 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0120070 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0120080 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0120090 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0120100 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0120110 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0130010 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
805 0130020 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
805 0130030 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
805 0130040 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
805 0130050 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
805 0140010 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
805 0151010 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
805 0151020 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
805 0153010 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
805 0153020 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
805 0154020 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
805 0154040 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
805 0154050 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
805 0154060 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the

805 0154070 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
805 0154080 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
805 0161030 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0401070 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0401090 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0402010 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0500030 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 0500060 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 1012020 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 1012030 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 1012040 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 1015020 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 1015030 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 1015040 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 1016020 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 1016030 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-
805 1030010 The European Food Safety Authority identified some information on analytical methods as unavailable. When re-

383 **Tefluthrin (tefluthrin including other mixtures of constituent isomers (sum of isomers))(F)**

383 (F) = Fat soluble

383 0213030 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
383 0213080 The European Food Safety Authority identified some information on metabolism as unavailable. When re-viewing the
383 0213100 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
383 0213110 The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the
383 0231010 The European Food Safety Authority identified some information on residue trials including analyses of metabolites Ia,
383 0231030 The European Food Safety Authority identified some information on residue trials including analyses of metabolites Ia,
383 0233010 The European Food Safety Authority identified some information on residue trials including analyses of metabolites Ia,
383 0233030 The European Food Safety Authority identified some information on residue trials including analyses of metabolites Ia,
383 0234000 The European Food Safety Authority identified some information on residue trials including analyses of metabolites Ia,
383 0251010 The European Food Safety Authority identified some information on residue trials including analyses of metabolites Ia,
383 0251040 The European Food Safety Authority identified some information on residue trials including analyses of metabolites Ia,
383 0251050 The European Food Safety Authority identified some information on residue trials including analyses of metabolites Ia,
383 0251060 The European Food Safety Authority identified some information on residue trials including analyses of metabolites Ia,
383 0251070 The European Food Safety Authority identified some information on residue trials including analyses of metabolites Ia,

383	0251080	The European Food Safety Authority identified some information on residue trials including analyses of metabolites la,
383	0270030	The European Food Safety Authority identified some information on residue trials including analyses of metabolites la,
383	0270040	The European Food Safety Authority identified some information on residue trials including analyses of metabolites la,
383	0270070	The European Food Safety Authority identified some information on residue trials including analyses of metabolites la,
383	0401050	The European Food Safety Authority identified some information on residue trials including analyses of metabolites la,
383	0401060	The European Food Safety Authority identified some information on residue trials including analyses of metabolites la,
383	0401070	The European Food Safety Authority identified some information on residue trials including analyses of metabolites la,
383	0401090	The European Food Safety Authority identified some information on residue trials including analyses of metabolites la,
383	0500010	The European Food Safety Authority identified some information on residue trials including analyses of metabolites la,
383	0500030	The European Food Safety Authority identified some information on residue trials including analyses of metabolites la,
383	0500040	The European Food Safety Authority identified some information on residue trials including analyses of metabolites la,
383	0500050	The European Food Safety Authority identified some information on residue trials including analyses of metabolites la,
383	0500070	The European Food Safety Authority identified some information on residue trials including analyses of metabolites la,
383	0500080	The European Food Safety Authority identified some information on residue trials including analyses of metabolites la,
383	0500090	The European Food Safety Authority identified some information on residue trials including analyses of metabolites la,
383	1016010	The European Food Safety Authority identified some information on metabolism and feeding studies as unavailable.
383	1016020	The European Food Safety Authority identified some information on metabolism and feeding studies as unavailable.
383	1016030	The European Food Safety Authority identified some information on metabolism and feeding studies as unavailable.
383	1016040	The European Food Safety Authority identified some information on metabolism and feeding studies as unavailable.
383	1016050	The European Food Safety Authority identified some information on metabolism and feeding studies as unavailable.
383	1030010	The European Food Safety Authority identified some information on metabolism as unavailable. When re-viewing the
383	1030020	The European Food Safety Authority identified some information on metabolism as unavailable. When re-viewing the
