

Proposal for Amendment to Legal Inspection for Children’s Bedguards

By the Bureau of Standards, Metrology and Inspection (BSMI), Ministry of Economic Affairs

Background:

The Bureau of Standards, Metrology and Inspection proposes to adopt the most recent version of CNS 15911 “Child use and care articles-Children’s bedguards for domestic use” and CNS 15503 “General safety requirements for children’s products,” as the inspection standards for children's bedguards in order to ensure adequate protection of young children. The revision of these standards mainly involves the addition of requirements for the test mattress and deletion of DMP and DEP from the scope of restricted phthalates. The conformity assessment procedure remain unchanged.

Proposed date of implementation: to be determined
