

Substance Code	Footnote
Flubendiamide (F)	
	(F) = Fat Soluble
Meptyldinocap (sum of meptyldinocap and meptyldinocap phenol (2,4-DNMHP), expressed as meptyldinocap) (F)	
	(F) = Fat Soluble
0151010	The European Food Safety Authority identified some information on residue trials and storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
0151020	The European Food Safety Authority identified some information on residue trials and storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
0152000	The European Food Safety Authority identified some information on the nature of residues for rotational crops, residue trials and storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
0233010	The European Food Safety Authority identified some information on the nature of residues for rotational crops, residue trials and storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
0233030	The European Food Safety Authority identified some information on the nature of residues for rotational crops, residue trials and storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
Metaflumizone (sum of E- and Z- isomers) (F)	
	(F) = Fat Soluble
0231010	The European Food Safety Authority identified some information on the toxicological profile of metabolite M320I04 as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
0231020	The European Food Safety Authority identified some information on the toxicological profile of metabolite M320I04 as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
0232020	The European Food Safety Authority identified some information on the toxicological profile of metabolite M320I04 as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
0241020	The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
0243010	The European Food Safety Authority identified some information on the toxicological profile of metabolite M320I04 as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
0251010	The European Food Safety Authority identified some information on the toxicological profile of metabolite M320I04 as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

- 0251020 The European Food Safety Authority identified some information on the toxicological profile of metabolite M320I04 as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
- 0251040 The European Food Safety Authority identified some information on the toxicological profile of metabolite M320I04 as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
- 0251050 The European Food Safety Authority identified some information on the toxicological profile of metabolite M320I04 as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
- 0251060 The European Food Safety Authority identified some information on the toxicological profile of metabolite M320I04 as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
- 0251070 The European Food Safety Authority identified some information on the toxicological profile of metabolite M320I04 as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
- 0251080 The European Food Safety Authority identified some information on the toxicological profile of metabolite M320I04 as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

Propineb and its reaction products that are cleaved to propane-1,2-diamine (PDA), expressed as PDA (R)

(R) = The residue definition differs for the following combinations pesticide-code number:

Propineb - code 1000000 except 1020000 and 1040000: Propylenethiurea (PTU), free

Propineb - code 1020000: Propylenethiurea (PTU) free and conjugated
