

COMMISSION REGULATION (EU) 2021/618**of 15 April 2021****amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for diclofop, fluopyram, ipconazole and terbuthylazine in or on certain products****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, and in particular Article 14(1)(a) and Article 49(2) thereof,

Whereas:

- (1) For diclofop, fluopyram, ipconazole and terbuthylazine maximum residue levels (MRLs) were set in Part A of Annex III to Regulation (EC) No 396/2005.
- (2) For diclofop the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽²⁾. It proposed to change the residue definition. The Authority concluded that concerning the MRLs for barley and wheat, some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.
- (3) For fluopyram the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽³⁾. It recommended lowering the MRLs for mulberries (black and white), elderberries, cassava roots/manioc, arrowroots, beetroots, garlic, onions, shallots, chervil, chives, celery leaves, parsley, sage, rosemary, thyme, laurel/bay leaves, tarragon, lentils, buckwheat and other pseudocereals and herbal infusions from roots. For other products, the Authority recommended raising or keeping the existing MRLs. Based on rotational crops studies and taking into account that the uptake of residues in succeeding crops cannot be fully avoided, specific MRLs reflecting uptake of residues from soil were derived for cassava roots/manioc, sweet potatoes, yams, arrowroots, other root and tuber vegetables except sugar beets, chicory roots, broccoli, cauliflowers, Brussels sprouts, head cabbages, kales, kohlrabies, watercresses, herbal infusions from roots, root and rhizome spices, sugar beet roots, sweet corn, maize/corn, buckwheat and other pseudocereals and common millet/proso millet. The MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. The Authority further concluded that concerning the MRLs for lemons, mandarins, bananas, spring onions/green onions and Welsh onions, tomatoes, melons, watermelons, Chinese cabbage/pe-tsai, escaroles/broad-leaved endives, land cresses, red mustards, spinaches, chards/beet leaves, globe artichokes and leeks some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.

⁽¹⁾ OJ L 70, 16.3.2005, p. 1.

⁽²⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for diclofop according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2020; 18(1): 5981.

⁽³⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for fluopyram according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2020; 18(4): 6059.

- (4) For ipconazole the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽⁴⁾. It recommended keeping the existing MRLs. The MRLs for the products concerned should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority.
- (5) For terbuthylazine the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽⁵⁾. The Authority proposed to change the residue definition for milk. It recommended lowering the MRLs for maize/corn and sorghum. The MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the level identified by the Authority. The Authority further concluded that concerning the MRLs for sweet corn, lupins/lupini beans, sunflower seeds, cotton seeds, bovine (muscle, fat, liver, kidney, milk) and equine (muscle, fat, liver, kidney, milk) some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.
- (6) Existing Codex maximum residue limits (CXLs) were taken into account in the reasoned opinions of the Authority. CXLs, which are safe for consumers in the Union, were considered for MRL setting.
- (7) As regards products on which the use of the plant protection product concerned is not authorised in the EU, and for which no import tolerances or CXLs exist, MRLs should be set at the specific Limit of Determination ('LOD') or the default MRL should apply, as provided for in Article 18(1)(b) of Regulation (EC) No 396/2005.
- (8) The Commission consulted the European Union reference laboratories for residues of pesticides as regards the need to adapt certain LOD. As regards all substances concerned by this Regulation, those laboratories concluded that for certain commodities technical development requires the setting of specific LOD.
- (9) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (10) Through the World Trade Organisation, the trading partners of the Union were consulted on the new MRLs and their comments have been taken into account.
- (11) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (12) In order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for a transitional arrangement for products which have been produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained.
- (13) A reasonable period should be allowed to elapse before the modified MRLs become applicable in order to permit Member States, third countries and food business operators to prepare themselves to meet the new requirements which will result from the modification of the MRLs.
- (14) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

⁽⁴⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for ipconazole according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2020; 18(1): 5961.

⁽⁵⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for terbuthylazine according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2020; 18(1): 5980.

HAS ADOPTED THIS REGULATION:

Article 1

Annexes II and III to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.

Article 2

Regulation (EC) No 396/2005 as it stood before being amended by this Regulation shall continue to apply to products which were produced in the Union or imported into the Union before 6 November 2021.

Article 3

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 6 November 2021.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 15 April 2021.

For the Commission
The President
Ursula VON DER LEYEN

ANNEX

Annexes II and III to Regulation (EC) No 396/2005 are amended as follows:

(1) in Annex II, the following columns for diclofop, fluopyram, ipconazole and terbuthylazine are added:

Pesticide residues and maximum residue levels (mg/kg)

Code number	Groups and examples of individual products to which the MRLs apply ⁽¹⁾	Sum of diclofop-methyl, diclofop acid and its salts, expressed as diclofop-methyl (sum of isomers)	Fluopyram (R)	Ipconazole (F)	Terbuthylazine (F), (R)

(*) Limit of analytical determination

(e) For the complete list of products of plant and animal origin to which MRLs apply, reference should be made to Annex I.

Sum of diclofop-methyl, diclofop acid and its salts, expressed as diclofop-methyl (sum of isomers)

- (+) The European Food Safety Authority identified some information on residue trials and toxicological data on conjugates of diclofop acid, conjugates Mx and metabolite 6a as unavailable. Pending submission and evaluation of confirmatory data, livestock should not be fed with straw from treated barley. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0500010 Barley

- (+) The European Food Safety Authority identified some information on residue trials and toxicological data on conjugates of diclofop acid, conjugates Mx and metabolite 6a as unavailable. Pending submission and evaluation of confirmatory data, livestock should not be fed with straw from treated wheat. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0500090 Wheat

Fluopyram (R)

(R) = The residue definition differs for the following combinations pesticide-code number:

Fluopyram - code 1000000 except 1040000: sum of fluopyram and fluopyram-benzamide (M25) expressed as fluopyram

- (+) The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0110030 Lemons

0110050 Mandarins

0163020 Bananas

- (+) MRL derived from rotational crops.

0212010 Cassava roots/manioc

0900030 Chicory roots
-

Ipconazole (F)

(F) = Fat soluble

Terbuthylazine (F), (R)

(F) = Fat soluble

(R) = The residue definition differs for the following combinations pesticide-code number: Terbuthylazine - code 1020000 Sum of terbuthylazine and desethyl-terbuthylazine, expressed as terbuthylazine (F)

- (+) The European Food Safety Authority identified some information on storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0234000 (d) sweet corn

- (+) The European Food Safety Authority identified some information on residue trials and storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0300040 Lupins/lupini beans

- (+) The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0401050 Sunflower seeds

- (+) The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.

0401090 Cotton seeds

- (+) The European Food Safety Authority identified some information on livestock metabolism and feeding studies as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by [Office of Publication: please insert date 2 years after publication], or, if that information is not submitted by that date, the lack of it.
