

Revision of list of the plants subject to specific phytosanitary measures to be carried out in exporting countries (Annexed table 2-2 of the Ordinance for Enforcement of the Plant Protection Act) and the details of requirements for each of the quarantine pests:

Note: Underlined regions/countries, plants, quarantine pests or requirements will be added. Strikethrough regions/countries or plants will be deleted.

Common requirements

The plants must be accompanied by a phytosanitary certificate or a certified copy of the phytosanitary certificate issued by the NPPO of an exporting country to certify that the plants have been inspected and are considered to be free from quarantine pests.

Item No	Region/countries	Plants	Quarantine pests	Requirements
1	[Latin America] Argentina, Uruguay, Ecuador, El Salvador, Guyana, Guatemala, Costa Rica, Colombia, Surinam, Trinidad and Tobago, Nicaragua, Panama, Paraguay, Brazil, French Guiana, Venezuela, Belize, Peru, Bolivia, Honduras, Mexico	Fresh fruits of the following plants: <i>Pouteria obovata</i> , abiu (<i>Pouteria caimito</i>), apricot (<i>Prunus armeniaca</i>), yellow pitahaya (<i>Hylocereus megalanthus</i> (syn. <i>Selenicereus megalanthus</i>)), common fig (<i>Ficus carica</i>), <i>Campomanesia xanthocarpa</i> , kiwi fruit (including <i>Actinidia deliciosa</i> , <i>Actinidia chinensis</i>), passion fruit (<i>Passiflora edulis</i>), <i>Chrysophyllum gonocarpum</i> , tamarillo (<i>Cyphomandra betacea</i> (syn. <i>Pionandra betacea</i> , <i>Solanum insigne</i> , <i>Solanum betaceum</i>)), carambola (<i>Averrhoa carambola</i>), cherry (including <i>Prunus avium</i> , <i>P. cerasus</i> , others), pomegranate (<i>Punica granatum</i>), sapodilla (<i>Manilkara zapota</i> (syn. <i>Achras zapota</i>)), <i>Ziziphus joazeiro</i> , <i>Zuelania guidonia</i> , plum (including <i>Prunus domestica</i> , <i>Prunus salicina</i>), pear (<i>Pyrus</i>), <u>papaya (<i>Carica papaya</i>) (excluding those listed in Appendix 5 in this table)</u> , loquat (<i>Eriobotrya japonica</i>), feijoa (<i>Feijoa sellowiana</i>),	<i>Anastrepha fraterculus</i> (South American fruit fly)	The plants must fulfill either of the following specific requirement under the supervision of the NPPO of the exporting country and found to be free from <i>Anastrepha fraterculus</i> . The additional declaration and the details of treatment (e.g. date, temperature, time) are made on the phytosanitary certificate or the certified copy of the phytosanitary certificate based on the work plan. The work plan which describes the following specific requirements must be developed and submitted by the NPPO of the exporting country. In case that the Director of Plant Protection Division of MAFF, Japan (hereinafter referred to as "PPD") confirms it is sufficient and appropriate from the technical and scientific viewpoints, PPD approves it. Either 1. The fruits of the plants must have been produced in specified areas where the NPPO of the exporting country has determined with the appropriate procedure that <i>Anastrepha fraterculus</i> does not occur and such status can be properly maintained.

		<p>grape (<i>Vitis vinifera</i>) (excluding those listed in Appendix 1 in this table), round kumquat (<i>Fortunella japonica</i>), mango (<i>Mangifera indica</i>), peach (<i>Prunus persica</i>), Singapore almond (<i>Terminalia catappa</i>), apple (<i>Malus</i>), <i>Diospyros</i>, <i>Rubus</i> (excluding those listed in Appendix 3 in this table), <i>Coffea</i>, <i>Vaccinium</i> (excluding those listed in Appendix 4 in this table), <i>Spondias</i>, <i>Psidium</i>, <i>Annona</i>, <u><i>Vitis</i> (excluding those listed in Appendix 1 in this table)</u>, <i>Syzygium</i>, <i>Citrus</i> (excluding those listed in Appendix 2 in this table and excluding lime and lemon), <i>Eugenia</i>, <i>Malus</i></p> <p>Appendix</p> <p>1 <i>Vitis</i> shipped from Mexico (excluding Chiapas state) and is not moved through areas listed in item 1 of the Annexed Table 2-2.</p> <p>2 <i>Citrus</i> shipped from Mexico (excluding Chiapas state) and is not moved through areas listed in item 1 of the Annexed Table 2-2.</p> <p>3 <i>Rubus</i> shipped from Mexico (excluding Chiapas state) and is not moved through areas listed in item 1 of the Annexed Table 2-2.</p> <p>4 <i>Vaccinium</i> shipped from Mexico (excluding Chiapas state) and is not moved through areas listed in item 1 of the Annexed Table 2-2.</p> <p><u>5 Papaya shipped from Mexico (excluding Chiapas state) and is not moved through areas listed in item 1 of the Annexed Table 2-2.</u></p>		<p>or</p> <p>2. The fruits of the plants must be treated with the appropriate treatment against <i>Anastrepha fraterculus</i> at a facility where the NPPO of the exporting country has designated.</p>
2	[Latin America] Argentina, Ecuador, Colombia, Panama, Paraguay, Brazil, Venezuela, Peru, Bolivia	<p>Fresh fruits of the following plants: watermelon (<i>Citrullus lanatus</i> (syn. <i>Citrullus vulgaris</i>)), bottle gourd (<i>Lagenaria siceraria</i> (syn.</p>	<i>Anastrepha grandis</i> (South American cucurbit fruit fly)	The plants must fulfill either of the following specific requirement under the supervision of the NPPO of the exporting country and found to be free from <i>Anastrepha grandis</i> .

		<i>Lagenaria leucantha</i>), <i>Cucurbita</i> , <i>Cucumis</i>		<p>The additional declaration and the details of treatment (e.g.date, temperature, time) are made on the phytosanitary certificate or the certified copy of the phytosanitary certificate based on the work plan.</p> <p>The work plan which describes the following specific requirements must be developed and submitted by the NPPO of the exporting country. In case that the Director of Plant Protection Division of MAFF, Japan (hereinafter referred to as “PPD”) confirms it is sufficient and appropriate from the technical and scientific viewpoints, PPD approves it.</p> <p>Either</p> <ol style="list-style-type: none"> 1. The fruits of the plants must have been produced in specified areas where the NPPO of the exporting country has determined with the appropriate procedure that <i>Anastrepha grandis</i> does not occur and such status can be properly maintained. <p>or</p> <ol style="list-style-type: none"> 2. The fruits of the plants must be treated with the appropriate treatment against <i>Anastrepha grandis</i> at a facility where the NPPO of the exporting country has designated.
3	[Latin America] El Salvador, Guatemala, Costa Rica, Nicaragua, Panama, Belize, Honduras, Mexico	Fresh fruits of the following plants: cashew (<i>Anacardium occidentale</i>), passion fruit (<i>Passiflora edulis</i>), pomegranate (<i>Punica granatum</i>), pear (<i>Pyrus</i>), feijoa (<i>Feijoa sellowiana</i>), rose apple (<i>Syzygium jambos</i> (syn. <i>Eugenia jambos</i>)), mammee sapote (<i>Pouteria sapota</i>), mamee apple (mammee apple) (<i>Mammea americana</i>), quince (<i>Cydonia oblonga</i>), mango (<i>Mangifera indica</i>), peach (<i>Prunus persica</i>),	<i>Anastrepha ludens</i> (Mexican fruit fly)	<p>The plants must fulfill either of the following specific requirement under the supervision of the NPPO of the exporting country and found to be free from <i>Anastrepha ludens</i>.</p> <p>The additional declaration and the details of treatment (e.g. date, temperature, time) are made on the phytosanitary certificate or the certified copy of the phytosanitary certificate based on the work plan.</p> <p>The work plan which describes the following specific requirements must be developed and submitted by the NPPO of the exporting</p>

		<i>Spondias purpurea</i> , manzano peppers (<i>Capsicum pubescens</i>), <i>Diospyros</i> , <i>Casimiroa</i> , <i>Coffea</i> , <i>Psidium</i> , <i>Annona</i> , <i>Citrus</i> (excluding lime and lemon)		<p>country. In case that the Director of Plant Protection Division of MAFF, Japan (hereinafter referred to as “PPD”) confirms it is sufficient and appropriate from the technical and scientific viewpoints, PPD approves it.</p> <p>Either</p> <p>1. The fruits of the plants must have been produced in specified areas where the NPPO of the exporting country has determined with the appropriate procedure that <i>Anastrepha ludens</i> does not occur and such status can be properly maintained.</p> <p>or</p> <p>2. The fruits of the plants must be treated with the appropriate treatment against <i>Anastrepha ludens</i> at a facility where the NPPO of the exporting country has designated.</p>
4	[Latin America] Ecuador, El Salvador, Guyana, Guatemala, Costa Rica, Colombia, Surinam, Nicaragua, West Indies (Antigua and Barbuda, Cuba, Grenada, Jamaica, Saint Christopher and Nevis, Saint Vincent and the Grenadines, Saint Lucia, Dominica, Dominican Republic, Trinidad and Tobago, Haiti, Bahamas, Barbados, including United States Virgin Islands, Aruba, Anguilla, British Virgin Islands, Curacao, Guadalupe, Cayman Islands, Saint Barthelemy, Saint Martin, Turks and Caicos Islands, Puerto Rico, Bonaire, Sint	Fresh fruits of the following plants: acerola (<i>Malpighia emarginata</i> (including <i>Malpighia glabra</i> (syn. <i>Malpighia punicifolia</i>))), almond (<i>Prunus dulcis</i> (syn. <i>Prunus amygdalus</i> , <i>Prunus communis</i>)), carambola (<i>Averrhoa carambola</i>), sapodilla (<i>Manilkara zapota</i> (syn. <i>Achras zapota</i>)), jaboticaba (<i>Plinia cauliflora</i> (syn. <i>Eugenia cauliflora</i> , <i>Myrcia jaboticaba</i>)), plum (including <i>Prunus domestica</i> , <i>Prunus salicina</i>), pear (<i>Pyrus</i>), loquat (<i>Eriobotrya japonica</i>), Maya nut (<i>Brosimum alicastrum</i>), mango (<i>Mangifera indica</i>), <i>Pouteria</i> , <i>Diospyros</i> , <i>Spondias</i> , <i>Psidium</i> , <i>Syzygium</i> , <i>Eugenia</i>	<i>Anastrepha obliqua</i> (West Indian fruit fly)	<p>The plants must fulfill either of the following specific requirement under the supervision of the NPPO of the exporting country and found to be free from <i>Anastrepha obliqua</i>.</p> <p>The additional declaration and the details of treatment (e.g.date, temperature, time) are made on the phytosanitary certificate or the certified copy of the phytosanitary certificate based on the work plan.</p> <p>The work plan which describes the following specific requirements must be developed and submitted by the NPPO of the exporting country. In case that the Director of Plant Protection Division of MAFF, Japan (hereinafter referred to as “PPD”) confirms it is sufficient and appropriate from the technical and scientific viewpoints, PPD approves it.</p> <p>Either</p>

	Eustatius and saba, Martinique, Montserrat), Panama, Paraguay, Brazil, Venezuela, Belize, Peru, Honduras, Mexico			<p>1. The fruits of the plants must have been produced in specified areas where the NPPO of the exporting country has determined with the appropriate procedure that <i>Anastrepha obliqua</i> does not occur and such status can be properly maintained.</p> <p>or</p> <p>2. The fruits of the plants must be treated with the appropriate treatment against <i>Anastrepha obliqua</i> at a facility where the NPPO of the exporting country has designated.</p>
5	<p>[North America] United States of America (Florida state only),</p> <p>[Latin America] West Indies (Antigua and Barbuda, Cuba, Grenada, Jamaica, Saint Christopher and Nevis, Saint Vincent and the Grenadines, Saint Lucia, Dominica, Dominican Republic, Trinidad and Tobago, Haiti, Bahamas, Barbados, including United States Virgin Islands, Aruba, Anguilla, British Virgin Islands, Curacao, Guadalupe, Cayman Islands, Saint Barthelemy, Saint Martin, Turks and Caicos Islands, Puerto Rico, Bonaire, Sint Eustatius and saba, Martinique, Montserrat), French Guiana</p>	<p>Fresh fruits of the following plants:</p> <p>akee (<i>Blighia sapida</i>), acerola (<i>Malpighia emarginata</i> (including <i>Malpighia glabra</i> (syn. <i>Malpighia puniceifolia</i>))), icaco plum (<i>Chrysobalanus icaco</i>), carambola (<i>Averrhoa carambola</i>), sapodilla (<i>Manilkara zapota</i> (syn. <i>Achras zapota</i>)), jaboticaba (<i>Plinia cauliflora</i> (syn. <i>Eugenia cauliflora</i>, <i>Myrcia jaboticaba</i>)), caimito (star apple) (<i>Chrysophyllum cainito</i>), plum (including <i>Prunus domestica</i>, <i>Prunus salicina</i>), kumquat (oval) (<i>Fortunella margarita</i>), pear (<i>Pyrus</i>), loquat (<i>Eriobotrya japonica</i>), mango (<i>Mangifera indica</i>), peach (<i>Prunus persica</i>), Singapore almond (<i>Terminalia catappa</i>), apple (<i>Malus</i>), <i>Diospyros</i>, <u><i>Pyrus</i></u>, <i>Spondias</i>, <i>Psidium</i>, <i>Annona</i>, <i>Syzygium</i>, <i>Citrus</i> (excluding lime and lemon), <i>Eugenia</i></p>	<i>Anastrepha suspensa</i> (Caribbean fruit fly)	<p>The plants must fulfill either of the following specific requirement under the supervision of the NPPO of the exporting country and found to be free from <i>Anastrepha suspensa</i>.</p> <p>The additional declaration and the details of treatment (e.g. date, temperature, time) are made on the phytosanitary certificate or the certified copy of the phytosanitary certificate based on the work plan.</p> <p>The work plan which describes the following specific requirements must be developed and submitted by the NPPO of the exporting country. In case that the Director of Plant Protection Division of MAFF, Japan (hereinafter referred to as "PPD") confirms it is sufficient and appropriate from the technical and scientific viewpoints, PPD approves it.</p> <p>Either</p> <p>1. The fruits of the plants must have been produced in specified areas where the NPPO of the exporting country has determined with the appropriate procedure that <i>Anastrepha suspensa</i> does not occur and such status can be properly maintained.</p> <p>or</p>

				2. The fruits of the plants must be treated with the appropriate treatment against <i>Anastrepha suspensa</i> at a facility where the NPPO of the exporting country has designated.
6	<p>[North America] United States of America (excluding Hawaiian Islands), Canada,</p> <p>[Latin America] Ecuador, El Salvador, Guatemala, Nicaragua, Honduras, Mexico,</p> <p>[Oceania] New Zealand, Norfolk Island (Australia)</p>	<p>Live plants and plant parts for planting (excluding seed) and cut flowers and branches and leaves, leafy vegetables and fruits for consumption and ornament of the following plants:</p> <p>alfalfa (<i>Medicago sativa</i>), apple of Peru (<i>Nicandra physalodes</i>), tamarillo (<i>Cyphomandra betacea</i> (syn. <i>Pionandra betacea</i>, <i>Solanum insigne</i>, <i>Solanum betaceum</i>)), sweet potato (<i>Ipomoea batatas</i> (including <i>Ipomoea batatas</i> var. <i>edulis</i>)), jimsonweed (<i>Datura stramonium</i>), field bindweed (<i>Convolvulus arvensis</i>), broad bean (<i>Vicia faba</i>), tobacco (<i>Nicotiana tabacum</i>), beet (including garden beet, red beet, sugar beet) (<i>Beta vulgaris</i> (including <i>Beta vulgaris</i> var. <i>altissima</i>, <i>Beta vulgaris</i> var. <i>rapa</i>, <i>Beta vulgaris</i> var. <i>rubra</i>)), corn (<i>Zea mays</i>), tomato (including <i>Lycopersicon esculentum</i> (syn. <i>Solanum lycopersicum</i>), <i>Solanum arcanum</i>, <i>Solanum cheesmaniae</i>, <i>Solanum chilense</i>, <i>Solanum galapagense</i>, <i>Solanum peruvianum</i>, <i>Solanum pimpinellifolium</i>), northern white cedar (<i>Thuja occidentalis</i>), <i>Raphanus sativus</i> var. <i>sativus</i>, sunflower (<i>Helianthus annuus</i>), lettuce (<i>Lactuca sativa</i>), <i>Lycium</i>, <i>Capsicum</i>, <i>Solanum</i>, <i>Physalis</i></p>	<i>Bactericera cockerelli</i>	<p>The plants must fulfill the following specific requirement AND the phytosanitary certificate or the certified copy of the phytosanitary certificate must include "<i>The required additional declaration</i>" mentioned below.</p> <p>The plants are found to be free from <i>Bactericera cockerelli</i> by inspection prior to export. The inspection should be carried out to determine if eggs are not present externally on the leaves and larvae and adults feed externally on the leaves, stems or fruits are not present. If <i>Bactericera cockerelli</i> is detected through the inspection, the plants are subjected to an appropriate treatment aiming at eradicating this pest. Details of treatment schedule should be included on the phytosanitary certificate under the heading "Disinfestation and/or Disinfection Treatments" with the date of the treatment stated.</p> <p><i>The required additional declaration:</i> <i>Fulfills item 6 of the Annexed Table 2-2 of the Ordinance for Enforcement of the Plant Protection Act (MAF Ordinance No73/1950)</i></p>

7	<p>[Asia] India, China (excluding Hong Kong), Nepal, Mongolia,</p> <p>[Middle East] Afghanistan, Israel, Iran, Turkey, Lebanon,</p> <p>[Europe] Azerbaijan, Armenia, Italy, Uzbekistan, Austria, Netherlands, Kazakhstan, Georgia, Switzerland, Sweden, Spain, Slovakia, Slovenia, Serbia, Tajikistan, Czech, Germany, Norway, Hungary, Finland, France, Bulgaria, Belgium, Poland, Lithuania, Romania, Russia,</p> <p>[Africa] Algeria, Tunisia, Morocco</p>	<p>Live plants and plant parts for planting (excluding seed) and cut flowers and branches and leaves, leafy vegetables and fruits for consumption and ornament of the following plants:</p> <p>treacle-mustard (<i>Erysimum cheiranthoides</i>), parsley (<i>Petroselinum crispum</i> (syn. <i>Petroselinum sativum</i>, <i>Petroselinum hortense</i>)), field penny-cress (<i>Thlaspi arvense</i>), <i>Chenopodium album</i>, jimsonweed (<i>Datura stramonium</i>), Canada thistle (<i>Cirsium arvense</i>), wild radish (<i>Raphanus raphanistrum</i>), field bindweed (<i>Convolvulus arvensis</i>), onion (<i>Allium cepa</i>), beet (including garden beet, red beet, sugar beet) (<i>Beta vulgaris</i> (including <i>Beta vulgaris</i> var. <i>altissima</i>, <i>Beta vulgaris</i> var. <i>rapa</i>, <i>Beta vulgaris</i> var. <i>rubra</i>)), <i>Capsella bursa-pastoris</i>, carrot (<i>Daucus carota</i> (including <i>Daucus carota</i> var. <i>sativa</i>)), <i>Senecio vulgaris</i>, <i>Raphanus sativus</i> var. <i>sativus</i>, <i>Ambrosia artemisiifolia</i> (including <i>Ambrosia artemisiifolia</i> var. <i>elatior</i>), <i>Brassica</i>, <i>Solanum</i></p>	<p><i>Bactericera nigricornis</i></p>	<p>The plants must fulfill the following specific requirement AND the phytosanitary certificate or the certified copy of the phytosanitary certificate must include "<i>The required additional declaration</i>" mentioned below.</p> <p>The plants are found to be free from <i>Bactericera nigricornis</i> by inspection prior to export. The inspection should be carried out to determine if eggs are not present externally on the leaves and larvae and adults feed externally on the leaves, stems or fruits are not present. If <i>Bactericera nigricornis</i> is detected through the inspection, the plants are subjected to an appropriate treatment aiming at eradicating this pest. Details of treatment schedule should be included on the phytosanitary certificate under the heading "Disinfestation and/or Disinfection Treatments" with the date of the treatment stated.</p> <p><i>The required additional declaration:</i> <i>Fulfills item 7 of the Annexed Table 2-2 of the Ordinance for Enforcement of the Plant Protection Act (MAF Ordinance No73/1950)</i></p>
8	<p>[Middle East] Israel, Iran, Turkey,</p> <p>[Europe] Italy, Cyprus, Greece, Switzerland, Spain, Slovakia, <u>Selvia</u>, Czech, Hungary, France, Portugal, Malta,</p> <p>[Africa] Algeria, Egypt, Canary Islands, Tunisia, Morocco</p>	<p>Live plants and plant parts for planting (excluding seed and fruit) and cut flowers and branches and leaves, leafy vegetables for consumption and ornament of the following plants:</p> <p>celery (<i>Apium graveolens</i> (including <i>Apium graveolens</i> var. <i>graveolens</i>, <i>Apium graveolens</i> var. <i>dulce</i>, <i>Apium graveolens</i> var. <i>rapaceum</i>)), <i>Ambrosia artemisiifolia</i> (including <i>Ambrosia</i></p>	<p><i>Bactericera trigonica</i></p>	<p>The plants must fulfill the following specific requirement AND the phytosanitary certificate or the certified copy of the phytosanitary certificate must include "<i>The required additional declaration</i>" mentioned below.</p> <p>The plants are found to be free from <i>Bactericera trigonica</i> by inspection prior to export. The inspection should be carried out to determine if eggs are not present externally on the leaves and larvae and adults feed externally on the leaves are not present. If <i>Bactericera</i></p>

		<i>artemisifolia</i> var. <i>elator</i>), <i>Daucus</i>		<p><i>trigonica</i> is detected through the inspection, the plants are subjected to an appropriate treatment aiming at eradicating this pest. Details of treatment schedule should be mentioned on the phytosanitary certificate under the heading "Disinfestation and/or Disinfection Treatments" with the date of the treatment stated.</p> <p>The required additional declaration: <i>Fulfills item 8 of the Annexed Table 2-2 of the Ordinance for Enforcement of the Plant Protection Act (MAF Ordinance No73/1950)</i></p>
9	<p>[Asia] India, [Middle East] Israel, Iran, Saudi Arabia, Turkey, [Europe] Italy, Uzbekistan, Greece, Kyrgyz Republic, Spain, Tajikistan, Turkmenistan, France, [Africa] Algeria, Egypt, Canary Islands, Sudan, Tunisia, Namibia, Morocco, Libya, Republic of South Africa, [North America] United States of America (excluding Hawaiian Islands), Canada, [Latin America] Jamaica, Puerto Rico, Mexico, [Oceania] Hawaiian Islands</p>	<p>Live plants and plant parts for planting (excluding seed and fruit) and cut flowers and branches and leaves, leafy vegetables for consumption and ornament of the following plants: red orache (<i>Atriplex rosea</i>), alfalfa (<i>Medicago sativa</i>), spreading wallflower (<i>Erysimum repandum</i> (syn. <i>Cheirinia repanda</i>)), salad rocket (<i>Eruca vesicaria</i> (syn. <i>Eruca sativa</i>)), red-stemmed filaree (<i>Erodium cicutarium</i>), trifoliolate orange (<i>Poncirus trifoliata</i>), phlox (<i>Gilia minutiflora</i>), shasta daisy (<i>Chrysanthemum maximum</i>), <i>Melilotus indicus</i>, Russian-thistle (<i>Salsola pestifer</i> (syn. <i>Salsola kali</i> subsp. <i>ruthenica</i>)), london rocket (<i>Sisymbrium irio</i>), calamondin orange (<i>Citrofortunella microcarpa</i> (syn. <i>Citrus x microcarpa</i>)), black pigweed (<i>Trianthema portulacastrum</i>), horseradish (<i>Armoracia rusticana</i> (syn. <i>Cochlearia armoracia</i>)), radish (<i>Raphanus sativus</i>), shortpod</p>	<p><i>Circulifer tenellus</i> (beet leafhopper)</p>	<p>The plants must fulfill the following specific requirement AND the phytosanitary certificate or the certified copy of the phytosanitary certificate must include "<i>The required additional declaration</i>" mentioned below.</p> <p>The plants are found to be free from <i>Circulifer tenellus</i> by inspection prior to export. The inspection should be carried out to determine if eggs are not present externally in the leaves and stems and larvae and adults feed externally on the leaves are not present.</p> <p>The required additional declaration: <i>Fulfills item 9 of the Annexed Table 2-2 of the Ordinance for Enforcement of the Plant Protection Act (MAF Ordinance No73/1950)</i></p>

		<p>mustard (<i>Hirschfeldia incana</i>), onion (<i>Allium cepa</i>), <i>Tidestromia lanuginosa</i>, sweet pepper (chili pepper, shishito pepper, bell pepper) (<i>Capsicum annuum</i>), tomato (including <i>Lycopersicon esculentum</i> (syn. <i>Solanum lycopersicum</i>), <i>Solanum arcanum</i>, <i>Solanum cheesmaniae</i>, <i>Solanum chilense</i>, <i>Solanum galapagense</i>, <i>Solanum peruvianum</i>, <i>Solanum pimpinellifolium</i>), <i>Fumaria capreolata</i>, carrot (<i>Daucus carota</i> (including <i>Daucus carota</i> var. <i>sativa</i>)), wild mustards (<i>Sinapis arvensis</i>), tumble mustard (<i>Sisymbrium altissimum</i>), <i>Funastrum hirtellum</i>, chinchweed (<i>Pectis papposa</i>), spinach (<i>Spinacia oleracea</i>), <i>Monolepis nuttalliana</i>, <i>Lepidium lasiocarpum</i>, <i>Chenopodium</i>, <i>Alyssum</i>, <i>Brassica</i>, <i>Linum</i>, <i>Cistus</i>, <i>Tamarix</i>, <i>Fortunella</i>, <i>Lycium</i>, <i>Zygophyllum</i>, x <i>Citroncirus</i>, <i>Cleome</i>, <i>Tropaeolum</i>, <i>Rosa</i>, <i>Zinnia</i>, <i>Amaranthus</i>, <i>Geranium</i>, <i>Beta</i>, <i>Petunia</i>, <i>Matthiola</i>, <i>Citrus</i></p>
