

**Phytosanitary requirements for the importation of cabbage seed
(*Brassica oleraceae* var. *capitata* L.), with origin and provenance from Spain.**

PHYTOSANITARY MEASURES TO APPLY

1. Phytosanitary Certificate issued by the National Phytosanitary Protection Organization (ONPF) of Spain, which must indicate in the additional declaration section that the botanical cabbage seed (*Brassica oleraceae* var. *capitata* L.) was found free of: *Pseudomonas viridiflava*, *Alternaria brassicicola*, *Alternaria japonica* and *Mycosphaerella brassicicola*
2. Application in origin of the sequence of the following phytosanitary treatments, the specifications of the same must be indicated in the corresponding section of the Phytosanitary Certificate that accompanies the shipment, which must state the active ingredient and dose.
 - Immersion in hot water at 50 ° C for 30 minutes, followed by the application of a broad spectrum fungicide to be chosen from the following list:
 - Mancozeb (250 g of A.I. / 100 kg of seed).
 - Fludioxonil (2.54 - 4.99 g of A.I. / 100 kg of seed).
 - Or a fungicide authorized in Spain for the prevention and / or control of *Alternaria brassicicola*, *Alternaria japonica* and *Mycosphaerella brassicicola*, in cabbage seed.
3. The cabbage seeds must be packed for export to Mexico in new, clean and closed containers, identified with traceability data [Name of the product, content (in net weight or number of seeds), country of origin and name of the company. exporting company].
4. The shipment of cabbage seed must come free of soil, weed seeds or any other plant material different from the product to be imported.
5. Phytosanitary inspection at the point of entry into Mexico and sampling by official Senasica personnel. During the first year of importation of the product, the samples must be sent to the official laboratories of the National Center for Phytosanitary Reference, for the phytosanitary diagnosis of the bacterium and fungi referred to in the additional declaration of the Phytosanitary Certificate.

**Phytosanitary requirements for the importation of cabbage seed
