## Outline of Proposed Amendment to Ministerial Ordinance

#### 1 Item

Partial amendment of the Ordinance for Enforcement of the Radio Act etc.

#### 2 Amendment to ministerial ordinance

Ordinance for Enforcement of the Radio Act

Ordinance Regulating Radio Equipment

Ordinance for Technical Regulations Conformity Certification of Specified Radio Equipment

#### 3 Reasons for amendment

Japan will amend the current technical regulations for mobile telecommunications radio equipment for LTE considering following needs.

- Expansion the 700MHz operating band from "718-748MHz(UpLink), 773-803MHz(DownLink)" to "715-748MHz(UpLink), 770-803MHz(DownLink)".
- Available for use the 3MHz Channel bandwidth in the 700MHz, 800MHz, 900MHz and 1.7GHz bands.

### 4 Outline of the amendment

Technical requirements of mobile telecommunications radio equipment for LTE which underlined character will be amended.

Item	Technical requirements			
Frequency	715-748MHz(UL)	815-845MHz(UL)	900-915MHz(UL)	1.71-1.785GHz(UL)
band	770-803MHz(DL)	860-890MHz(DL)	945-960MHz(DL)	1.805-1.88GHz(DL)
Channel Bandwidth	180kHz*1,1.08MHz*1, <u>3MHz,</u> 5MHz*2,10MHz*2, 15MHz*2 and 20MHz*2	180kHz*1,1.08MHz*1, <u>3MHz,</u> 5MHz,10MHz and 15MHz		180kHz*1,1.08MHz*1,  3MHz,5MHz,10MHz,  15MHz and 20MHz
Duplex	FDD			
Other	Compliant with 3GPP.			

<sup>\*1</sup> The 180kHz and 1.08MHz Channel bandwidths are available only for the Uplink.

# 5 Proposed date of entry into force August, 2023

<sup>\*2</sup> In the 715-718MHz(UpLink) and 770-773MHz(DownLink) frequency bands, the 5MHz, 10MHz, 15MHz and 20MHz Channel bandwidths aren't available.
